

Wood Finishing Products

K.W.T.
Kitchen Wood Treatment™

Product: 15404

08/06/03

SPECIFICATION SHEET

DESCRIPTION: Daly's Kitchen Wood Treatment is made from pure non-toxic ingredients and safe to use on any wooden kitchen items which come in contact with food. Periodic treatment with KWT keeps foodstuffs from penetrating the wood for easier cleaning and improved kitchen hygiene.

RECOMMENDED USES: Daly's Kitchen Wood Treatment may be used on any unfinished wood cutting boards, blocks, dishes and utensils. KWT is not a finish and will not prevent damage to cutting surfaces caused by knives.

RECOMMENDED SYSTEMS: Wood must be clean and dry. Rub on a generous amount of Kitchen Wood Treatment with a clean, lint free cloth. Wait a few minutes and wipe off excess. After two or three washings, apply another treatment of KWT.

SPECIAL INSTRUCTIONS: Prolonged skin contact may cause mild irritation. Wash hands after use. To prevent spontaneous combustion, wash application cloth in hot water and soap after use.

VEHICLE TYPE: Mineral Oil and Wax - FDA Approved for food contact.
