O.A.N. Oxalic Acid Neutralizer

Product: 17492

08/12/03

SPECIFICATION SHEET

DESCRIPTION: Daly's **Oxalic Acid Neutralizer** is a neutralizing compound for OXALIC ACID. When wood has been treated with OXALIC ACID, the acid can cause adhesion and appearance problems in subsequent finishes, especially water-based finishes. **Oxalic Acid Neutralizer** helps dissolve and remove the majority of the acid from the wood and neutralizes any remaining residual acid.

INSTRUCTIONS: To one quart of **very** hot water, add one tablespoon of **O.A.N.** Thoroughly mix until dissolved. Apply liberally to the wood with a synthetic bristle or foam brush. Let sit for 10 minutes, rinse with clean water, and vigorously wipe dry with white rags. Discoloration of the rag indicates that the OXALIC ACID is being extracted from the wood. Repeat the process until the wood can be wiped dry after rinsing without discoloring the rag. Two or three applications are normally sufficient. Give extra attention to the open-grain on hardwood, where OXALIC ACID can be more concentrated, thus more difficult to remove and neutralize. When the wood has dried, it may be sanded and finished with Daly's Wood Finishing products suitable to your preference and specific need.

CLEAN UP: Clean tools with warm water. Rags may be disposed of as household waste. Unused **O.A.N.** solution may be poured down the drain.

CAUTION: **CONTAINS SODIUM CARBONATE
MAY CAUSE IRRITATION TO EYES, SKIN, GASTROINTESTINAL SYSTEM AND
RESPIRATORY TRACT.**
Avoid breathing dust.
KEEP OUT OF REACH OF CHILDREN.

PERSONAL PROTECTION: EYES: Goggles
SKIN: Gloves and sufficient clothing to prevent skin contact.
INHALATION: Wear dust mask when mixing.

FIRST AID: SWALLOWING: Give two or three glasses of water or milk. Seek medical attention .
SKIN: Wash with soap and water.
EYES: Flush with water for 15 minutes. If irritation persists, seek medical aid.
INHALATION: If not breathing, administer artificial respiration. Remove to fresh air.
For persistent breathing difficulties or irritation seek medical attention
